What other important things do I have to know before entering my film at the festival ?

- By submitting a film, the owner of the film's rights, **confirms that he owns all the broadcast rights for the film (images, music, soundtrack) and grant the festival the right to screen the film at no fees** according to the ways mentioned in the festival's regulation (available at [www.onecountryonefilm.com](http://www.onecountryonefilm.com)) that he has read and agreed to.

- Please also note that the festival **does not pay screening fees** (meaning that the festival doesn't give money to rights owners of the films selected in order to screen their films).

- **Regulation regarding French subtitling** : the festival will provide free translation to French for selected films : if a SRT (subtitle file) in English is provided only a "clean" (without subtitles) film will be needed. If a regular dialogues list is provided the submitter will need to **either produce a SRT file or embed himself/herself**, free of charges to the festival, the French subtitles onto his/her film on time for the festival. If selected, the deadline to receive all items (SRT file, Clean Film file, French subtitled film file) is April 1st 2021.
