Founded 2003 in Paris the International Festival SIGNES DE NUIT had become a multinational meeting place and is today active in form of competition and focus programs in Berlin, Lisboa, Bangkok, Urbino, Tucuman Saarbrücken and other places. In these last years we have presented some thousand films from around 70 countries in our principal yearly festivals and on the same time in around 140 programs in collaboration with cultural institutions and festivals in up to now 34

countries, among those Algeria, Australia, Chile, Cuba, Hungary, Indonesia, Japan, Lebanon, Lithuania, Peru, Russia, Slovenia, Tunisia, Turkey, United States ...

The intention of the festival is to search and present films, which reflects new views, original imagery and critical approach to the crucial points of the modern human existence. It looks for astonishing, strange, surprising and sometimes provocative works. It is a place for cinema that expands its own boundaries, celebrating confrontations, tolerance and sensitisation for cultural differences, independence and individuality, ready to open up for unpredictable experimentation.

For each festival we compose new programs and invite a different jury.

Rules and Terms

* For the Cinema in Trangression ("Experimental") and the Documentary Competition no limitation (short and long).

* For the Short Film competition max lengh 30 min.

* For the Focus programs (thematic, regional) no limitation

For the competition programs the production year should not be older as 2018, for the focus programs not older as 2014.

In the case your film is chooses, we will contact you asking for a screening copy.

Also if your film is not chosen immedialtely, it can be chosen later for another upcoming festival during the year (in another country/town). In this case we will ask for your permission again.

With the submission on this platform you give automatically the screening permission of your film to the festival for this actual edition. The festival can integrate your film in its actual edition without further permissions from your side. You also can't add further condition for the screening permission (for example fee requests etc.). In the case we will not receive a screening copy in better technical quality, we will screen the submission file version.

We can't send back dvds, blurays, usb keys, hard disc ect.
