- INTRODUCTION -

The Fugitif Short Film Festival is an international competitive festival. This event aims to offer a high quality artistic and cultural experience in an exceptionally charming cinema in Avignon, the heart of the south of France.

The main screenings cover all styles: fiction, live action, animation, documentary, experimental, etc. We also offer a special screening for young audiences. Finally, a selection of music videos clips will be published on an online platform.

Information about the sponsors of the event will be published very soon.
Thank you to all those who support and collaborate with the Fugitif.

- PUBLIC SCREENINGS -

The festival takes place in the beautiful Cinéma de l'Utopia Palais des Papes in Avignon, France. This year, the main screening will be inaugurated by a concert in the cinema (AV performance) and enhanced with a buffet.

We also organise meetings between shortlisted directors and film students to encourage exchange and participate in the cultural weaving of the audiovisual sector.

A jury of selected artists will be present at the screening to determine the winner of the Fugitif Award. The public will also be invited to vote for the Fugitif Public Award.
