BEcome presents

Human Behavior - the International Film Festival

About

At BEcome, we teach to make people consider the planet as our home as well as the main resource of life; not just a place of exploitation.

But it is also the place to understand our human and social behaviours and the way humans act and interact among them and with the planet. We, the Human Species, are influenced by several factors, such as genetic make-up, culture, individual values and attitudes in our behaviors.

The behavior of humans (just as of other organisms) falls upon a spectrum, whereby some behaviors are common while others unusual, and some are acceptable while others beyond acceptable limits. The acceptability of behavior depends heavily upon social norms and is regulated by various means of social control, partly due to the inherently conformist nature of human society in general. Thus, social norms also condition behavior, whereby humans are pressured into following certain rules and displaying certain behaviors that are deemed acceptable or unacceptable depending on the given society or culture.

For this reason BEcome presents its first Film Festival dedicated to projects on Human and Social Behavior,(psychological, sociological, anthropological, ethical, environmental, etc) on the potential and expressed capacity of human individuals or groups to respond to internal and external stimuli throughout their life.

We accept projects of every genre from fiction to documentaries, from animation to short and features.

We are waiting to present and award:

Short films (from 3 up to 58 minutes)

Documentaries (from 20 to 59 minutes) and

Features (from 1 hour to 2 hours and 15 minutes)
