

7th International Short Film Festival

Official Short Film Contest Regulations

Article 1. Denomination

The Corti a Ponte Association herewith announces the 7th edition of the International Short Film Competition named "*Corti a Ponte - official contest*".

Article 2. Entry

Entry to the competition is free, except for the cases listed in article 11. There are no age limits, nor residence or citizenship restrictions.

Article 3. Works

Works must be no more than 3 years old (produced after 01/01/2011). Works already released or presented to other competitions are admitted. Each author can participate to the selection with a maximum of two works, regardless of the section they enter.

Article 4. Sections

The competition has three sections:

1. NARRATIVE SHORT FILMS
for live action fictional short films.
2. ANIMATION
for short films created with any animation technique (traditional, stop motion, pixilation, 2D, CG, 3D, ...)
3. MUSIC VIDEOS
for videos especially designed to promote a specific music piece.

Article 5 - Narrative Short Film Section

5.1 Only narrative live action short films can enter the competition. Video documentaries, art-videos, dance-videos and pictures sequences will not be accepted.

Works participating to the narrative short film section may have either a free or a given theme.

5.2 The short films must develop one of the following themes:

5.3

- **Free theme**

With no restraints to content and genre.

- **Bridge**

This theme can be analyzed from every point of view, with any meaning and by any facet. For instance, the film can tell about physical, real, unreal, ancient or modern bridges. The bridge could be metaphorical: the encounter of two different realities, the

breaking of a barrier, getting near someone, ... The theme can also be related to cultural exchanges and relationship between European cities (twinning).

• **UN International Year - Family farming**

2014 was declared by the United Nations “International Year of Family Farming”, to promote understanding about concepts like:

- Family and small-scale farming are inextricably linked to world food security.
- Family farming preserves traditional food products, while contributing to a balanced diet and safeguarding the world’s agro-biodiversity and the sustainable use of natural resources.
- Family farming represents an opportunity to boost local economies, especially when combined with specific policies aimed at social protection and well-being of communities.

The theme can be analyzed around family farming or - in a broader meaning - it can refer to the value of small scale production, to the importance of small things, to the variety and local diversity.

• **Slowness**

This theme is inspired by the Festival of Slowness, a local event built around the concept of SLOW. The theme can be developed around the slowness of a physical movement of a person, an object, an animal, a process or an event. The theme may also be dealt with by using slowness as a narrative style, as a characteristic of the narrative speed or of the editing rhythm. The theme can lead to reflecting about the fact that slowness is not only a physical matter, but also a social necessity, a way to notice the other: listening and dialoguing is the only way to get a proper vision of our historical and human context.

5.3 Narrative shorts must have a maximum duration of 15 '.

Article 6 - Animated Short Films Section

6.1 Works of any subject and any genre can participate in the animation section.
