

Brainwash is the original drive-in movie festival! Since 1995 we've delighted audiences with a selection of the bizarre, the unique, and just plain old well-made movies from independent producers all over the world. With an eye toward the abstract, the innovative and the weird, with a name like Brainwash (originally the Cacophony Short Film Video Drive-In Movies Festival), we attract entries we curate to be able to display some of the most cutting edge cinema from up and coming directors, actors, producers and crews consistently year after year.

#### Awards & Prizes

Prizes! We would like to welcome our returning sponsor Jungle Software to The Brainwash Movie Festival. We will be presenting Jungle software to our TOP 3 AWARD WINNERS this year, to help with future movie productions!

Chimpanzee and Story-O are production software especially designed for independent filmmakers. Chimpanzee allows you to create breakdown sheets, characters, budgets, manage cast & crew, generate call sheets, prop lists, shot lists, storyboards and more. Story-O allows you to outline your story in broad strokes, jot down raw notes and ideas, flesh out details and then put it all in story order when you're ready. Find out more at the Jungle Software website.

PLUS – A new award from InkTip!

3 winners will receive a prize package from InkTip: Where everyone goes for writers and scripts. Producers have made more than 200 films from scripts and writers they found through InkTip.

And Now... an even newer award from VideoMaker Magazine...

A one year FREE online subscription to ALL entrants to the 2017 Brainwash Movie Festival starting after the festival ends in August of this year!

#### Rules & Terms

All entries must be transferred to Region 1 or 0 DVD for screening, or .MP4 files online and downloadable.

Please include a 10-20 sec. clips and/or trailer of your movie(s) to be used in promoting the festival.

All accepted entries will be notified by mail – enclose your name and mailing address to get really cool retro paper tickets.

**PLEASE NEVER SEND YOUR PARENTS' HOME MOVIES!**
