About One World Romania

One World Romania (OWR) is the first documentary festival in Bucharest and, until today, the only Human Rights Festival in Romania. It explores human rights issues mainly via documentary moving images, and more recently through various other forms of art and medias. Programme By its nature, OWR is a non competitive festival. When evaluating films, the selection committee concentrates equally on the human rights take of the documentary, as well as its artistic quality.

The festival awards two symbolic prizes, an audience award and a prize to the best film according to a high school students' jury. 10 films from the selection will be included in this competition

The submitter of the film should be a person that has the legal right to negotiate the use of this work with One World Romania
