

Dear Filmmaker and Producer

We are in the process of programming our 6th edition of the Norient Music Film Festival. The festival is going to happen from January, 15-18 2015 at the cultural center Reitschule in Bern, Switzerland. See link to the 2014 edition of our festival: <http://musikfilmfestival.norient.com/> - and to impressions of 2013: <http://norient.com/blog/festival-2013/>

The Norient Festival is a small independent festival, but it received a lot of press in the last two years - for example in the British Music magazine The Wire. We are able to invite some of the directors to the festival.

Norient (www.norient.com) is an independent network for local and global sounds and media culture. We are publishing articles about music on our website, we produce CDs and films, we organize and curate events and exhibitions and we tour the world with our audio-visual performances "Sonic Traces".

You can send us DVDs (or Download link) so that we can watch your movie and decide to take it into the program.

Please do send the copy to

Thomas Burkhalter
